

## Purpose

This document describes how to upgrade a radio using the Feature Editing Software in RES.

A radio upgrade must be purchased and invoiced before the upgrade is available. Please contact the BK Technologies Sales Department to purchase upgrade: <a href="mailto:sales@bktechnologies.com">sales@bktechnologies.com</a>

## **Saving Options File**

- 1. Open RES
- 2. Connect the radio to your computer using the program cable.
- 3. Under the "Read / Write" section, click the "Read Radio" button.

4. Under the "Utilities" section, click the "Feature Editing Software" button.
